

VISEC® PLATINUM PLUS

Expandable easy-to-use I/O integrated IP surveillance software with Multi Monitor Support and Full PTZ control

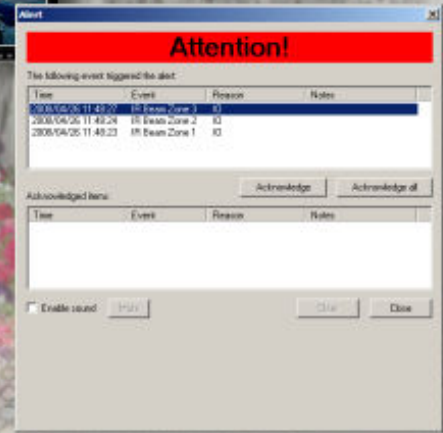

for Intrusion and Fire Alarm systems

The IP Surveillance I/O unleashed.

Visec® provides the most friendly TCP/IP SCADA compatible Industrial I/O integrated automation and control solution for IP surveillance.

Visec PLATINUM Plus IP surveillance software can be used with any type of Fire, Intrusion, Access Control and Alarm vendor. Instantly see what has caused the alarm; search the Events database for previous events together with instant live playback on preassigned cameras exactly when that event took place.
